Netzsch Vakumix Homogenizing Mixer, Type HM 2500

SKU:2876-1

Unused Netzsch Vakumix KappaVita homogenizing mixer, type HM 2500, 1.4435 grade stainless steel construction, 2500 liter capacity, approximately 1530 mm diameter x 2049 mm straight side, dish top and bottom, rated -1/+2 bar at 133 c internal, jacketed for -1/+4 bar at 151 c, 3450 liter total capacity, 600 - 2500 liter working capacity, top entering anchor agitator with bottom and sidewall scrappers driven by 30 kw motor drive with mechanical seal, approximately 2-50 rpm with (2) top entering Netzsch flow breaker baffles, bottom mounted homogenizer, model DH04, direct connected 105 kw motor with mechanical seal, up to 2600 rpm, recirculation line, product discharge subassembly with Waukesha rotary lobe pump, model 130U1 driven by 11 kw motor drive, hydraulic lid lift mechanism, 3/50/400 volt, UL and CE rated, on legs with load cells, mezzanine, Allen Bradley controls with motor VFD controllers and PLC controls, vessel certified by AMS-Technology GmbH, serial# 2777, Netzsch project# 8004122, serial# 11071264, built 2014 and unused.

Product Specifications

Capacity (Gallons): 660.5

Drawings: Yes

Internal Pressure: -14.5

Jacket Pressure: 58

Manuals: Yes

Manufacturer: NETZSCH

Material Of Construction: Stainless Steel

Model: HM2500

Motor HP: 140

Serial Number: 11071263

Jacket Temperature: 303

Year Of Construction: 2014
